Professional Summary

Frontend Developer skilled in building responsive, user-friendly web interfaces using HTML, CSS, JavaScript, React.js and Tailwind CSS. Passionate about writing clean code, improving user experiences and learning new technologies. Good understanding in Java, Data Structures & Algorithms and database management.

Technical Skills:

- Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS
- Database: Firebase, Supabase, SQL
- Programming Languages: Java (Data Structures & Algorithms)
- Tools & Version Control: Git, GitHub, VS Code

Projects:

• Job Portal Platform (Recruiter & Candidate Panels)

Tech Stack: React.js, Clerk, Supabase, Tailwind CSS, ShadCN UI

- Built a fully functional job portal where **candidates can apply for jobs and upload resumes**, while **recruiters can post job openings and track applications** in real time.
- Integrated **Clerk** for secure user authentication and implemented **role-based dashboards** for recruiters and candidates.
- Utilized **Supabase** for database and authentication management and developed a **fully responsive, modern UI** using Tailwind CSS and ShadCN UI components.

• AI Trip Planner Web App

Tech Stack: React.js, Tailwind CSS, Google Auth, ShadCN UI, Google Places API, Unsplash API, Gemini AI

- Developed an AI-powered trip planner that helps users generate personalized travel plans based on destination, budget and duration using **Gemini AI**.
- Integrated **Google Authentication** for secure login and **Google Places API & Unsplash API** to display real-time location data and high-quality travel images.
- Built a **modern, responsive UI** using React.js, Tailwind CSS and ShadCN UI to provide an engaging and seamless user experience across all devices.

• Food Delivery Web App with Admin Panel (Frontend Role)

Tech Stack: React.js, React-router-DOM, Axios, Firebase (for mock backend)

- Developed and designed the complete frontend for a food delivery application, including both customer and admin panels.
- Implemented features like restaurant listing, food menu display, cart management and order tracking using React components & state management.
- Built an admin dashboard for managing restaurants, menu items and orders with real-time updates via Firebase.
- Ensured responsive layouts and smooth UI/UX across desktop and mobile devices.

Education:

- **B.Tech. CSE (7th Semester)** 2022 – Present
 - Satyug Darshan Institute of Engineering and Technology (YMCA Affiliated) | SGPA: 7.51 (Until VII Sem)
- **12th Class (BSEB)** 2022
 - Janta High School Satayan, Bihar | Percentage : 74%
- **10th Class (BSEB)** 2020
 - Janta High School Satyaan, Bihar | Percentage: 69%

Certifications:

- freeCodeCamp – Front End Development Libraries Certification
- Scaler Academy – *MySQL Certification Course*
- AI Tools & ChatGPT Workshop – Be10x
